## The Courtyard Streetscape and Landscape

Plainfield, Illinois

### **Historic gems, outside.**

A historic gas station located in downtown Plainfield underwent a transformation with the help of Arris Architects and Upland Design. The building is listed as a National Landmark and is located on the former alignment of Route 66 and the Lincoln Highway. Upland Design assisted with all exterior streetscape and landscape improvements. Amenities included new paver walks, site furniture, fencing, mock gas pumps and landscape plantings.

The finished site has become a gem in downtown Plainfield with color, texture and personality.
