Nature's Pointe Playground

Fox Valley Park District, Aurora, Illinois

Playgrounds inspire kids to be active.

Playgrounds inspire kids to be active. This one does it in every possible way with climbing, swinging, sliding and imaginative play. From the eight foot climbing tunnel to the moving pod walk, this playground keeps kids moving with many looping routes. The rock and sand play area incorporate manipulative play where visitors can create their own sand castle or imaginative world.

Finally, the playground provides a great recreation amenity for all kids. By meeting federal safety and accessibility requirements, Nature's Pointe Playground gives Fox Valley kids of varied abilities another option for outdoor play and adventure.
