Quest Academy

Palatine, Illinois

A challenging site. A great solution.

Quest Academy is a Kindergarten through 8th grade private school with over 300 children in attendance. With drainage problems and 20-year old wood play equipment, the staff and parents decided a new outdoor play area was in order. Upland Design prepared numerous concepts and worked with the school to meet the needs of each age group.

The final playground has a game court area with basketball, picnic tables and game tables, play component structure, stand alone play pieces, new stairs, rubber surfacing and a new protective fence around the entire play area. The new play facilities maximize the site and have been a hit with kids and staff alike.
