## **Blackberry Trail Park – Sport Courts**

Fox Valley Park District and Kendall County Forest Preserve District  
Montgomery, Illinois

### **Go outside and enjoy the Blackberry Creek Trail.**

Linking the Blackberry Creek Trail system to new residential areas is the 20-acre Blackberry Trail Park. Upland Design led concept development, construction document preparation and permitting for the project. The new park incorporates a transition from the natural areas along Blackberry Creek to the park's active recreation areas.

One of the unique design features is a fully accessible sport court for both basketball and volley ball enthusiasts. The court has an asphalt base with a green on green color coat. Funded in part with IDNR OSLAD grant dollars, the new park includes many passive and active amenities for the community.

- Basketball Half Courts
- Accessible Paved Volleyball Court
- Community Picnic Shelter
- Stone Fire Ring
- Street Style Skate Area
- Tree House Playground
- Trail along the Blackberry Creek
- Interpretive Signs
- Restroom Building
