Braeburn Park - Sports Improvements

Batavia Park District and Geneva Park District

Neighborhood parks with sports encourage the community to be more active.

The Geneva and Batavia Park Districts knew it was time to update the sports at this 20-year old park. The existing basketball court had been reduced to one hoop and a sea of asphalt. To improve play and expand activities, the asphalt was renovated and color coated with a true half court basketball court and the addition of funnel ball game area, four square and hop scotch. Next, the park's backstop was a neighborhood favorite that need an update. To improve and expand the play, the lawn was removed to create a clay infield, new accessible fenced players areas were created and the chain link fence repaired. The park is now a haven for neighborhood sports enthusiasts.
