## Indian Boundary Park

Bolingbrook Park District, Bolingbrook, Illinois

### **Moving beyond baseball to a community sports park.**

The redevelopment of this 68-acre property transformed it from a baseball park to a true community sports park. A land purchase added space for a new Pony League baseball field north of the new skate park, basketball courts, and tennis courts.

The new development connected it to the Village bikeway system and parking was added to make room for more visitors. Bronze statues and landscaping provided the finishing touches on the park project. The work was partially funded with Illinois Department of Natural Resources OSRAD grant dollars.
